Monterey, Cal., "The Queen of American Watering Places."

Only Three and a half hours by Rail from San Francisco.

The Winter weather at Monterey is warmer than at any of the European or Floridian resorts, and much drier. It is for all the world like the Indian Summer of the Eastern and Southern States.

THE MAGNIFICENT
HOTEL Del MONTE

IS OPEN ALL THE YEAR ROUND

For the Reception of Guests and Seekers after Health.

The Most Delightful Summer and Winter Resort on the Pacific Coast, and the Handsomest Seaside Hotel in the World.
GEORGE SCHONEWALD, Manager.

MONTEREY, CAL.

The "Queen of American Watering Places," and the Great
Summer and Winter Resort of the
Pacific Coast.

THE "HOTEL DEL MONTE,"

MONTEREY, CALIFORNIA,

THE MOST ELEGANT SEA-SIDE ESTABLISHMENT IN THE WORLD,
Is Open all the Year Round.

And is only 3½ Hours by Rail from San Francisco.

THE "DEL MONTE" is handsomely furnished throughout, and has all the modern improvements of hot and cold water, gas, etc., etc. It is picturesquely situated in a grove of 126 acres of oak, pine, spruce and cypress trees, and is within a quarter of a mile of the beach, which is unrivalled for bathing purposes.

Parks and Drives.

SEVEN THOUSAND ACRES OF LANDS have also been reserved, especially as an adjunct to the "HOTEL DEL MONTE," and through which have been constructed **twenty-five miles** of splendid macadamized roadway, skirting the Ocean Shore and passing through extensive forests of spruce, pine and cypress trees.

BEAUTIFUL DRIVES to Cypress Point, Carmel Mission, Point Lobos, Pacific Grove Retreat, and other places of great interest.

Sea Bathing.

THE BATHING FACILITIES at this place are unsurpassed, there being a **Magnificent Beach** of pure white sand for surf-bathing.

Warm and Swimming Baths.

THE BATH HOUSE contains **Spacious Swimming Tanks** (150x 50 feet) for warm salt water plunge and swimming baths, with **elegant rooms** connecting for Individual Baths, with douche and shower facilities.

TERMS FOR BOARD:

By the Day, \$3.00. By the Week, \$17.50. Parlors from \$1 00 to \$2.50 per day extra. Children \$10.50 per week.

Testimonials Concerning "Dr. Horne's Electro-Magnetic Belt."

The following are a few of the Many Thousands of Testimonials received:—

Denver Testimonial.

DENVER, Colorado, January 21, 1883.

To whom it may concern:—I take great pleasure in stating I have worn Dr. Horne's famous Electric Belt about sixty days, and it has cured me of chronic constipation of years standing; also bleeding piles, rheumatism, and general debility. I have recommended them to many friends, who purchased them, and have received wonderful benefits. I honestly cannot say too much in regard to their merits, and will reply to all letters on the subject. Respectfully yours,

D. C. ROBBINS.

With Cornforth & Co., fruit dealers, 272 and 274 Holliday Street.

Indianapolis Testimonials.

INDIANAPOLIS, January 26, 1883.

To whom it may concern:—I have been wearing Dr. W. J. Horne's Electric Belt for four weeks; am delighted with its effects.

J. D. CONDIT.

INDIANAPOLIS, January 8, 1883.

Dear Sir:—I have tried Dr. Horne's Electric Belt for Paralysis of six years' standing, and found that it has been a great relief. Yours truly,

Rev. J. P. COWAN.

Pastor United Presbyterian Church.

Omaha Testimonial.

DR. W. J. HORNE: *Dear Sir:*—My wife has been seriously afflicted with piles for the past ten years, and I have tried several doctors and many different remedies without receiving any relief, until I got one of your Electric Belts on the 10th of March, 1883, and she has had no pain or trouble from the piles since. I would not take \$1,000 and be without your belt. I cannot praise it too highly. Respectfully yours,

JOHN C. CHRISTENSEN,

Nineteenth and Harney streets, Omaha, Neb.

She Suffered Terribly.

DEER TRAIL, Arapahoe County, Colorado, March 9, 1883.

DR. W. J. HORNE: *Dear Sir:*—I am happy to state to you that my daughter, Miss Tilda, is entirely well and able to do her work as usual, and your Electric Belt did it. She was suffering terribly for weeks, and nothing seemed to relieve her until she commenced wearing the belt.

Yours truly,

WM. FUNCHEON.

P. S.—For the sake of suffering humanity you are at liberty to use the above statement.

WM. F.

In the above case the young lady suffered with such severe pains in the back that sometimes for a week she could not leave her bed. She used the belt less than two months.

A Physician Cured.

OMAHA, Neb., April 12, 1883.

DR. W. J. HORNE: *Dear Sir:*—I purchased one of your Electric Belts in Denver, Colorado, December, 1882. It relieved the pain across my kidneys, and strengthened them so that they gave no more trouble. The spinal irritation it relieved immediately which nothing could have done. Your agent here has sold them to parties for piles, sexual weakness, neuralgia, paralysis, and female weakness, with whom I am acquainted, and the results in each case more than meet expectations. I can refer any one to these parties who desire it. Respectfully,

1613 Capital Avenue, Omaha.

DR. M. N. PORTER.

From a Denver Merchant.

DENVER, Colorado, August 29, 1882.

DR. W. J. HORNE: *Dear Sir:*—Having suffered for several years from lumbaro and kidney diseases, without obtaining relief from medicine, I can sincerely state that your Electric Belt has given me immediate relief, and I can recommend it to others afflicted likewise.

Yours respectfully,

THOMAS HEWSTON.

Explanatory from Leadville.

LEADVILLE, Colorado, October 1, 1882.

DR. W. J. HORNE: *Dear Sir:*—I take pleasure in saying that during the past year I have sold hundreds of your famous Electric Belts for rheumatism, neuralgia, kidney disease, torpid liver, impotency, dyspepsia, nervousness, general debility, and many other diseases, and I can honestly say that no medical treatment in the world gives such satisfaction and performs so many cures as your scientific Electric Belts have done. Yours fraternally,

DR. W. B. COOKE.

33.—In ordering Belts send the amount by Registered Letter, Post-office Money Order, or Draft. When required, will be sent by express, C. O. D. Address all communications, giving size in inches below the hips, to

PREFACE.

THIS, the third issue of our COUNTY DIRECTORY, is now before the public, and it is the intention of the publishers to issue a number occasionally, trusting the new features introduced in this issue will sufficiently recommend and justify the continuation of its publication.

The object of this work has not only been to give the names and addresses of business and professional residents, but also to include every bona fide resident land owner, with number of acres to which title has been acquired.

In thus diverging from the beaten paths of Directories and encompassing a new and original plan, we have possibly made errors, which, in future issues, will, we anticipate, be remedied.

The arrangement of the work, we trust, will prove satisfactory to our patrons, the names being arranged in alphabetical order under their respective post-office addresses; also, a brief descriptive sketch of each place.

We return thanks to our patrons for their favors, and it is hoped that the result of our labors will prove satisfactory to all.

PACIFIC WATER CURE

— AND —

Eclectic Health Institute,

Northwest Corner 7th and L Streets, Sacramento, Cal.

This Institute has been thoroughly refitted and furnished with all the modern improvements necessary for the successful treatment of every form of disease. We can now offer the best facilities of any institution on the Pacific Coast for the cure of Chronic Diseases, such as Rheumatism, Neuralgia, Paralysis, Dropsy, Affections of the Lungs, Liver, Stomach, Bowels, Genito-Urinary Organs, and Catarrh, for the treatment of which a new instrument has been invented, by the aid of which medicines can be applied directly to the seat of the disease, in the form of delicate sprays and medicated air, thus rendering the treatment both pleasant and effective, and reaching many cases which have heretofore been considered incurable. Troubles peculiar to females receive special attention. Every patient receives the comforts of a home together with the Best Medical Counsel in the Country, and treatment administered by kind and competent assistants.

SACRAMENTO INSTITUTE.

A Select Boarding School,

CONDUCTED BY THE

Christian Brothers,

Corner K and Twelfth Streets, Sacramento.

The object of this Institution is to give a thoroughly Christian and secular education. Particular attention is given to such commercial branches as fit young men for business. While classics and modern languages receive due attention, special care is taken to impart a thorough knowledge of English.

The school year consists of ten months. Students are received at any time during the year, but not for a shorter period than one quarter—of two and a half months. Each student should be provided with a sufficient supply of clothing, under-garments, boots, shoes, toilet articles, bedding, etc., to suit the season.

COURSE OF STUDIES.

Reading, Writing, Penmanship, Geography, Grammar, Arithmetic, Algebra, History (Ancient and Modern), Epistolary Correspondence, Rhetoric, Composition, Natural Philosophy, Physiology, Chemistry, Geometry, Trigonometry, Astronomy, Surveying, Navigation, Book-keeping, Logic, French, German, Spanish, Latin, Telegraphy.

A PRACTICAL BUSINESS AND BANKING DEPARTMENT

Has just been organized, in which young men will enjoy all the advantages of a first-class Commercial College.

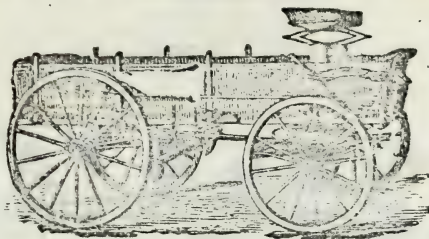

TERMS: Payable in Advance.

Board and Tuition, and Washing, per quarter.....\$75 00
 Day Scholars.....from \$10 to \$25 per quarter.
 Music, Drawing and Telegraphy, extra. No entrance fee charged.

BUTTE COUNTY.

ORGANIZED in 1850. Bounded on the northwest by Tehama; northeast by Plumas; southeast by Yuba; south by Sutter; and on the west by Colusa. Mountain and valley form the chief topographical features of Butte County. It contains 1,458 square miles, and is rich in mineral wealth. In early days its gulches and flats were among the most productive in the State, and, when exhausted, the hydraulic pipe was brought into requisition to wash the immense gravel beds that were discovered in the hills, the sediment, probably, of ancient rivers.

The only hydraulic mining now carried on is at the town of Cherokee, twelve miles north of Oroville.

The valley land is fertile; all the cereals thrive; and the land is being thoroughly cultivated by experienced farmers with the most improved machinery.

There are several large tracts of land controlled by a few parties, but these are either divided up and leased or are being sold in smaller tracts.

Lumbering is carried on to a large extent, the pine forests of the higher altitudes forming an almost inexhaustible supply of first-class lumber.

Flumes are used for transporting the lumber from the saw-mills to the towns—one of them, emptying at Chico, being thirty-five miles long; another, ending at a point seventeen miles south of Oroville, is forty miles in length. River and railroad afford ample transportation facilities. The Oregon Division of the Central Pacific Railroad runs through the county from south to north. The California Northern connects Marysville, in Yuba County, with Oroville, the county seat of Butte County. This road is to be extended into Plumas County, the survey having already been made.

Although this county produces from its rich soil in the valleys an abundant harvest of wheat, the foot-hills are gradually being devoted to the cultivation of the grape and the larger fruits, varieties of which are pronounced equal to the production of other fruit-growing counties of the State. Good schools and many churches are well supported. The school buildings are of a superior character.

A large amount of attention is being paid to the manufacturing interest, and first-class works of all kinds are springing up all over the county.

The character of the farm dwellings is improving decidedly, and the air of comfort surrounding them is suggestive of the old homes east of the Rockies. The towns are growing in a healthy manner. The people are intelligent, enterprising, and hospitable. The climate is healthful, and everything is conducive to prosperity and happiness.

Biggs

Is situated on the line of the Oregon Division of the Central Pacific Railroad, distant twelve miles southeast of Oroville and twenty-one miles northwest of Marysville. It contains a population of 700 people, and derives its name from Major Biggs, one of the early settlers. The country surrounding is noted for its farming products, upon which the town is chiefly dependent. The evidences of prosperity are abundant on all sides, and the numerous local enterprises are proofs of the wisdom of the inhabitants and their confidence in its future. Large warehouses, for the storage of grain, have been recently erected, and the railroad company has made extensive improvements in its offices and freight rooms. Mr. I. L. McDaniels, an enterprising citizen, is the proprietor of barley-mills and water-works connected therewith, which latter supply the town with an abundance of pure water. He is also the owner of one of the largest and best appointed livery stables in the

State, a two-story brick building, the upper floor of which is fitted up as a public hall for balls and exhibitions, containing separate dressing-rooms for ladies and gentlemen; the dimensions are 40x100 feet. The Planters' Hotel, under the proprietorship of our old friend Phil. Green, is a hostelry where the comforts and wants of families and commercial travelers are looked after in the best possible manner.

GRANGERS' BUSINESS ASSOCIATION, 38 Cal. St. S. F.; Grain Warehouses
at Port Cost. Consignments solicited.

The first part of the paper is devoted to a discussion of the
 various methods which have been proposed for the determination of
 the rate of reaction between a solid and a liquid. The methods
 are classified into three groups: (1) methods based on the
 measurement of the change in weight of the solid, (2) methods
 based on the measurement of the change in volume of the liquid,
 and (3) methods based on the measurement of the change in
 the concentration of the liquid. The first two methods are
 generally applicable to all reactions, while the third method
 is only applicable to reactions in which the concentration of
 the liquid changes. The methods based on the measurement of
 the change in weight of the solid are the most accurate, but
 they are also the most tedious. The methods based on the
 measurement of the change in volume of the liquid are the
 most rapid, but they are also the least accurate. The methods
 based on the measurement of the change in the concentration of
 the liquid are the most convenient, but they are also the
 least accurate.

Chico.

Chico, the largest town of Butte County, situated on the division of Central Pacific and Oregon Railroad, about 90 miles distant from Sacramento, has a population of about 6,000, and is a thriving town. Beautifully located, it is the garden spot of Butte, surrounded by immense farms and timber lands. It has five churches, two fine brick school houses, several private schools, and three large public halls. The societies are, viz: Lodges—Masonic, Odd Fellows, Red Men, Temperance, Order of A. O. U. W., Knights of Honor, and several others, and all in a prosperous condition; has excellent water and gas works, several fire-hose companies. There are two banks—the Bank of Butte County, and Bank of Chico—and business houses of all descriptions. The town was incorporated about eleven years ago. It has a city government. The surrounding county is well settled. Chico has three daily and three weekly newspapers. They are ably conducted and have a fine circulation. The *Butte Record* is conducted by the veteran and able editor, George H. Crossette. The *Enterprise*, by D. H. Woods, and the *Chronicle*,

by Walker & Brown. The manufacturing interest is increasing. The Chico Iron and Machine Works, M. L. Mesy proprietor, are next to the largest and most complete north of Sacramento. A new large two-story building has recently been erected. New and modern machinery of all kinds has been introduced, and the works are prepared to turn out work of the best quality, competing successfully with any establishment on the coast. The Sierra Lumber Company does an immense business at this place, one of their flumes terminating here. They carry a large stock of all sizes of building lumber, and are the largest producers of sugar pine on the coast. Their mills, 35 miles away, are connected with Chico by telephone, which enables them to fill orders for odd sizes promptly. Upon one occasion a special order was received in the morning, the trees felled, the logs taken to the mill and sawed, and the lumber flumed and delivered at Chico the same day. Their yard in the southeast part of town is connected with the Central Pacific by a branch track. The Union Hotel, conducted by Messrs. Allen & Werstbaugher, gentlemen every way competent to run a first-class house, is not surpassed by any on the coast in room, accommodation, or table. Mr. Charles Olinger, the clerk, looks carefully after the comfort of guests. General John Bidwell's ranch is well worth a visit of many miles to see. The grounds adjoining the house are beautifully laid out in shrub-

BILLINGSLEY & CO.

THE ORIGINAL IMPROVED

Union Churn!

EVERY CHURN WARRANTED!

SATISFACTION GUARANTEED!

OVER 100,000

OF THESE CHURNS ARE NOW IN ACTUAL USE!

And after twelve years' trial we can truthfully assert that the UNION is NOT one of the many worthless patents that have been put on the market, but a Churn that will do the work thoroughly and in a satisfactory manner. It is the most durable, the simplest and the easiest to keep sweet and clean. One very important fact is that it

WILL MAKE GOOD BUTTER.

A thermometer, for testing the temperature of the cream before churning, is furnished gratis. If you want a churn, get the UNION, and if it does not work satisfactorily, return it.

SIZES:

No. 0—Small Family Use, 3 Gal. | No. 2—The Farm Use, 7 Gal. | No. 4—The Dairy, 15 Gal.
No. 1—Ordinary " " 5 Gal. | No. 3—Large " " 10 Gal. | No. 5—Large " 25 Gal.

Manufactured by the Tiffin Union Co., for

BILLINGSLEY & CO.,

BUTTER BARRELS, FIRKINS AND KITS

THE UNION CHURN.

BUY ONE! IF IT DON'T

SUIT YOU, RETURN IT!

THE above cut represents the Union Churn with one of the side pieces removed to give an interior view. As will be seen, after removing the dasher, which is accomplished by simply detaching a small copper pin and taking off the small wheel, it presents an even and unbroken surface thus enabling all parts of the Churn to be easily cleaned after using.

THE UNION CHURN

Has received the highest premium at the State Fairs of Ohio, Indiana, Illinois, Wisconsin, Michigan, New York, Pennsylvania, Kentucky, Maryland, Iowa, Georgia and Alabama, and at innumerable County Fairs throughout the entire country. At every trial, where the real value and perfection in use have been in test, the UNION has proved its excellence of workmanship and perfect adaptation to the wants of the public.

NOTE.—The only objection ever offered to the Union Churn, viz: the wearing out of the iron gearing by friction on the flange of the pinion wheel, is now removed by our IMPROVED GEARING. The wheel is now made without a flange, and works solidly and noiselessly.

A FEW REASONS WHY IT IS THE BEST CHURN.

You can make, gather, work and salt your butter without the use of a butter bowl, removing from the churn, or touching with the hand.

It makes more butter from the same amount of cream than any other churn, thereby saving its own cost in a short time.

It churns with ease by the extra power and motion gained by the use of gear wheels.

It is easily cleaned because not complicated.

It makes beautiful butter by the extra working of the dasher on the butter while churning.

It is durable and lasts a life-time, saving the cost of a new churn every few years.

FOR SALE BY

HEALD'S BUSINESS

COLLEGE OF

HEALD'S COLLEGE BANK

ESTABLISHED 1853.

SAN FRANCISCO.

96b

HEALD'S BUSINESS COLLEGE

24 POST STREET,

Near Kearny,

Opposite Mechanics' Institute, SAN FRANCISCO.

The Leading Commercial School of America!

The BUSINESS COURSE will include Book-keeping in all its forms, by both single and double entry, comprising practical work in Banking, Jobbing, Importing, Commission, Railroad, Brokerage, etc.; Arithmetic, including abbreviated forms of commercial calculations in use by good accountants; Penmanship, with complete analysis and movement exercises; Correspondence, comprising all the different forms, with rules for use of Capital letters and punctuation; Mercantile Law, with lectures on all the important topics; English branches, including spelling, grammar, composition exercises, rhetoric, etc.; French, German and Spanish; Drawing in its various forms; Business forms of every variety; actual practice in all kinds of business; Lectures on Book-keeping, Penmanship, Business Customs, Political Economy, and various other topics calculated to impart to the pupil habits of industry, promptness in business affairs, and reliability of character.

INSTRUCTION FOR LADIES.

Ladies are admitted into all the departments of the College on the same terms and conditions as young men. Their progress in all branches thus far has been most flattering.

GENERAL INFORMATION.

Pupils can enter the College at any time and pursue their studies to graduation, without interruption. Those not sufficiently advanced for the Business Course can enter for instruction in the English Department.

Modern Languages and Drawing may be taken or not, but no extra charge will be made for them when pursued.

The discipline of the school is very careful, in order to instill such habits as shall conduce to the future success of graduates.

Visitors will always be welcome at the College, as we are pleased to have the public inform itself of the merits of our school.

LIST OF FACULTY.

E. P. HEALD,
F. C. WOODBURY,
A. B. CAPP,
H. M. STEARNS,

103

Gridley.

The town is situated on the Oregon Division of the Central Pacific Railroad, seventy miles north of Sacramento, fifteen miles west of Oroville, twenty-six miles south of Chico, two and a half miles from Feather River, and twenty miles east of the Sacramento River; has a population of 700. Agriculture is its chief source of support, being surrounded by rich arable land of three different qualities, to wit: River bottom, where failure of crops is unknown; timber land, which has a fine sandy soil peculiarly adapted for wheat, the wood paying the expense of cleaning; and the adobe land west of town, which is a fine grain-producing soil, now being drained and cultivated in such a manner that a good crop every year is almost certain. The town is beautifully located in the center of a grove of live oak timber, where there is sandy soil, making it free from mud during winter. There are three churches: Catholic, Methodist, and United Brethren. The various fraternal societies are represented and are in a prosperous condition. The *Herald*, with Mr. C. N. Reed in the editorial chair, looks well after the interests of the town and country, and has the appearance of prosperity.

The Grangers' Bank is about to build a large grain warehouse, which, in connection with those already erected by other parties, will give accommodation to a large amount of grain. The

Gridley Flouring-mills, under the ownership of Maj. Marion Biggs, has a capacity of 225 barrels of flour in twenty-four hours. A new bank has recently been established here, which will have the effect to center more trade in Gridley. The character of the business buildings is good, being mostly brick. Fourteen have been erected during the past twelve months. The hotels are well patronized. The Gridley is controlled by our genial host, Wm. A. Lilly, who looks carefully after the comfort of his guests.

The Gridley Broom Factory is an important and growing industry of the place. The manufacturing interests are attracting attention from monied men. The climate is unsurpassed, scarcely any sickness prevailing.

Works Hiram

Oroville

Was organized during the mining excitement of 1855, and rapidly became an important center. It is the county seat of Butte County, situated on the

east bank of the Feather River, twenty-eight miles north of Marysville, with which place it is connected by the California Northern Railroad. It draws trade from the two industries of mining and agriculture—the eastern portion of the county paying tribute in the golden treasures of the quartz ledge and the gravel bed, while the west pours in her wealth of grain and fruit. It is the point from which stages and freight wagons leave for all parts of the mountains, and the trade of the various sections thus tapped renders the town a continual scene of bustle and enterprise. Her merchants and farmers are all transacting a profitable business, and thoroughly believe in the future of the entire section in which Oroville is located. The mining interests contiguous to Oroville are attracting attention among capitalists.

The manufacturing interests are among the best in this section of the State, and will in time be taken advantage of. The Oroville Flour mill is run by water-power and turns out flour of the best quality. There are good schools and several churches. The United States Hotel, kept by the well-known competent and genial L. W. Hoops, assisted by attentive clerks, is a most desirable house to stop at for a short or long time.

The *Mercury* and *Register*, weekly journals, are ably-edited newspapers and first-class exponents of the people of this section. A branch of Rideout & Smith's Bank, of Marysville,

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth, struggle, and achievement. From the first settlers to the present day, the nation has evolved through various challenges and triumphs. The early years were marked by exploration and the establishment of colonies. The American Revolution led to the birth of a new nation, and the subsequent years saw the expansion of territory and the development of a unique American identity. The Civil War was a pivotal moment in the nation's history, leading to the abolition of slavery and the strengthening of the federal government. The 20th century brought significant social and economic changes, including the rise of the industrial revolution and the civil rights movement. Today, the United States continues to shape the world through its leadership in science, technology, and international relations.

H. WACHHORST has an Endless Variety of **Rings,** from

Cherokee.

Situated twelve miles north of Oroville, in Oregon Township. Population about 500. Some of the most extensive hydraulic mining on the coast is carried on here. The Spring Valley Hydraulic Gold Mining Co. operate with 2,500 inches of water, and employ 160 men. Cherokee possesses a brewery, by Charles Bader, a Lodge of Odd Fellows of 40 members, and a Good Templars' Lodge of 75 members—a big thing in a mining town.

SUTTER COUNTY.

ORGANIZED in 1850. Bounded north by Yuba and Butte, east by Yuba and Placer, south by Sacramento and Yolo, and west by Yolo and Colusa Counties. Area, 576 square miles; county seat, Yuba City; population estimated 7,800. The county was named after General John A. Sutter, one of its first settlers, and who for many years made his home at Hock Farm, on the banks of Feather River. It was in the General's mill-race, on the south fork of the American River, at Coloma, Eldorado County, gold was first discovered, on the 19th of January, 1848. "The Buttes," a group consisting of three rugged peaks, rising abruptly from the plain to an altitude of 1,100 feet, and covering an area of twelve miles in length and four miles in breadth, form a landmark of the valley. The resources are exclusively agricultural, the county occupying a fertile section in the center of the Sacramento Valley. Productions, small grains and fruit. The Briggs' orchard, one of the most valuable in the State, is located two miles south of Yuba City. The producers are favored with two navigable streams on the east and west of the county, which give quick transit and low freights to tide-water.

Kempton Township.

Post-office Sheridan, Placer County.

Live Oak,

Situated on the California and Oregon Railroad, is eleven miles northwest of Yuba City. Some of the best wheat in the State is raised here. The land, with one exception, is settled up and divided into small farms, and is valued at \$25.00 to \$45.00 per acre. Live Oak supplies Marysville with a large portion of her firewood. Population about 100. It has two stores, two saloons, one boarding-house, and blacksmith and wagon shop, with good facilities.

Meridian.

A post, express, and telegraph office, on the Colusa Stage Line eighteen miles from Yuba City. It is a shipping point on the Sacramento River for a large wheat-growing district. There are two hotels; the Mitchell House, kept by Mr. A. H. Mitchell, is the best in the county outside of Yuba City. Two general merchandise stores, a drug store, blacksmith shop, and a number of saloons. Mr. F. D. Thornbrough has one of the finest general merchandise stocks in the county. Population about 250.

YUBA COUNTY.

BOUNDED on the north by Butte, on the east by Sierra and Nevada, on the south by Placer and Sutter, and on the west by Sutter and Butte.

The Feather River forms the dividing line on the west, while the Yuba traverses it from the northeast to the southwest, forming a junction with the Feather at Marysville.

Yuba County was organized in 1850, and is one of the few historic counties of the State.

During the exciting times of the mining fever, the reputation of its wonderful riches and treasures spread far and wide, and it received a large portion of the immigration which poured in during that memorable era. The total area is 616 square miles, and the population 11,000.

The county comprises both mountain and valley land—the former productive in gold and abounding in forests of pine, and the latter producing grains, fruits, and all classes of vegetation in great perfection.

Its metropolis, Marysville, occupies a prominent position among the cities of the coast. Its other principal towns are Camptonville, Wheatland, Smartsville, and Brownsville, each and all commanding a flourishing trade.

Brown's Valley.

Situated twelve miles northeast of Marysville, and has a population of 100 persons. There is a post-office with mail communication three times a week with Marysville by the Downieville Stage Line. Valuable quartz

lodes exist at this place, and at one time two quartz mills of eight and sixteen stamps were constantly mining on ore that assayed \$20 to \$100 per ton. Over \$100,000 were expended in developing these mines, but owing to the great flow of water into the lower levels, they

Camptonville.

A post and express office pleasantly situated in the mountains forty-five miles northeast of Marysville. Lovely gardens and fine orchards surround the town. A number of hydraulic mines are being worked in the vicinity, and the lumber business is almost of equal importance. Camptonville has a bank called the Bank of Camptonville, also a tri-weekly stage and a military organization in which she takes great pride.

Hansonville.

Hansonville is a post-office located in the foot-hills, twenty-eight miles northeast of Marysville, on the La Porte Stage Road, and has a tri-weekly mail. There are very rich mineral deposits at this point; a ten-stamp mill run by steam, and a five-stamp mill run by water-power, are in constant operation. An extensive orchard and vineyard, owned by J H Hanson, lie adjacent, also the old and well-known Paulin Rouze vineyard, owned by Salsa and Co.

H. WACHHORST'S Selection of JEWELRY, WATCHES, Etc.

Marysville,

The metropolis of northern California, is the market and distributing point for all that vast section, and possessing many natural advantages as a commercial center. Its river and railroad facilities make it most eligible. Marysville is the county seat of Yuba County, and has a population of about 5,000, being the largest town north of Sacramento in the State, and the central point for a large and highly productive agricultural district, also drawing a large trade from the rich mining towns of the Sierra Nevada. It is favorably situated for commercial purposes, being at the junction of the Yuba and Feather Rivers, both of which have been navigable streams; and it is thought by the citizens of Marysville that when the hydraulic mining shall have ceased, an appropriation will be made by Congress to clean out the beds of both rivers, so as to make them again navigable. There is no doubt but the day is not long distant when Marysville will have a boom second to anything on record, and we honestly believe that there is no grander place in the United States for speculation than that of Marysville. Real estate at present can be bought very cheap, and it would be well for parties wanting to invest their money to first give Marysville a call. The railroads at present are the California and Oregon, which passes through the city, crossing the river on a fine bridge; and

the California Northern Railroad, from Marysville to Oroville, twenty-nine miles, gives accommodations to the mining regions of Butte, Sierra, and Plumas Counties, and brings their trade to Marysville. From its earliest period, Marysville has been an important center for staging, and although the railroads have transferred the travel, the business is still large. Messrs. Lowrey & Nelson have splendidly equipped stages running to Colusa, Smartsville, and all important inland towns in this section of the State. The streets of the city are broad and roomy, and a more beautifully laid-out city does not exist. The city in former years was once or twice over-flooded, and caused considerable damage, but now Marysville is surrounded with water-proof levees, and there never will be another flood here. Marysville has a reputation of having the soundest business firms, financially, on the coast outside of San Francisco. Among some, we note the banks. The bank of Decker & Jewett began business under the firm name of Cunningham & Brumagim in a zinc house on C Street, between Third and Fourth, being the first bank in the city. They subsequently moved to D Street, between First and Second. In 1856 Cunningham & Brumagim dissolved partnership, Mr. Brumagim continuing under the style of Mark Brumagim & Co, and transacting an immense business. In eight years, from 1855 to 1862 inclusive, Mark Brumagim & Co. shipped gold-dust to the value of

\$21,540,000. The present firm of Decker & Jewett (organized in 1858) still enjoys the flourishing business as well as the confidence of all classes of the community. The banking house of Rideout & Smith was first organized by Adams & Co in 1849; Macy, Low & Co. succeeded Adams & Co in 1853; Low Bros. & Co. succeeded Macy, Low & Co. in 1857, and the present firm, Rideout & Smith, succeeded Low Bros. & Co. in November, 1861. In early days they did a large business in purchasing gold-dust, for statistics show the shipping to San Francisco in the four years, from 1861 to 1865, by this firm to be over \$14,000,000, and although their business is not so large at present, they still enjoy the largest banking business north of Sacramento in the State. Marysville Academy of Notre Dame, established in 1856 by the Sisters of Notre Dame, a society of ladies who throughout the United States and Europe devote themselves to the education of the youth, with the primary views of instilling a nobler ambition in their young minds, and forming girls to be ornaments, and useful members to society. The institution is situated in the upper part of Marysville, and is surrounded by an extensive garden and playground, furnished with every facility for the recreation of the physical body. The studies embrace all the modern languages, besides vocal and instrumental music and other studies essential to a high-class

academy. The growing belief is that Marysville has seen her dark days, and, like the rose bud, has gone and withered only to bloom more beautiful than ever in the sweet summer which is to come.

THE

FIREMAN'S FUND
INSURANCE COMPANY
OF CALIFORNIA.

Assets and Premium Income Greatest of All the Companies
Organized West of New York State.

As the FIREMAN'S FUND derives its income from all portions of the United States, and has only about one-third as much at risk, for its size, in San Francisco, as the average of the other "home" companies, its patrons are amply protected in case of a large conflagration, and still have the advantage of dealing directly with the head office in event of loss, thereby avoiding formality and delay.

FOR THE TEETH.

THE GREATEST PRESERVER AND BEAUTIFIER OF THE AGE.

Delightful, Fragrant Dentifrice, by the use of which the Teeth and Gums are preserved, and health and beauty greatly enhanced. After thirty-five years' dental practice, Dr. A. F. Merriman offers this valuable dentifrice as the result of his long experience, believing all who give it a trial will appreciate its worth. Guaranteed free from acid and all injurious matter. The highest Diploma was awarded this preparation at the last Industrial Exhibition in San Francisco. There is nothing that adds so much to personal loveliness and beauty as a set of pearly white teeth, and pure, sweet breath. By using Dr. Merriman's Fragrant Kalliodont Liquid, with Kalliodont Paste, or Powder, the teeth and gums are kept in perfect order and a fragrant breath assured. Although prepared as a toilet wash, the liquid possesses remarkable healing properties for inflamed gums and sore mouth. The large sale of this dentifrice in so short a period after introduction is accounted for by the fact, that after once used it leaves such a pleasurable sense of cleanliness to the mouth, and beauty to the teeth and gums, that it is considered almost indispensable. Smokers, and all who use tobacco in any form, will find Liquid Kalliodont a pleasant remedy for the breath. Put up in toilet cases containing a bottle of Liquid and Powder, 75c. case; Liquid Kalliodont, separate, 50c. bottle; Kalliodont Paste, 50c. For sale by all druggists. Take no other.

KALLIODONT MANUFACTURING COMPANY, OAKLAND, CAL.

HINTS ON THE CARE OF THE TEETH.

- 1st. Cleanliness is of absolute importance, and its neglect cannot be atoned for by dental skill.
- 2d. Thoroughly cleanse the teeth each night and morning with Liquid Kalliodont,—ten or fifteen drops on a moist brush being sufficient,—and at least two or three times a week, with Kalliodont Paste or Powder, giving the brush an upward motion on the lower, and a downward motion on the upper teeth,—and no portion of any tooth should escape its action,—thus preventing the accumulation of tartar, so destructive to the teeth and gums.
- 3d. The passage of silk floss between the teeth is essential to the cleansing of their approximal surfaces.
- 4th. A rightly-trimmed quill toothpick is useful, especially after eating.
- 5th. Children's teeth require daily cleansing by some competent person, from the time they commence to take solid food, with Fragrant Kalliodont.
- 6th. For tartar or other special condition, consult your dentist.

NOTE.—The accompanying view of the Big Trees of California is fully described in "Beauties of California," which contains a large number of beautifully Colored Plates, made from photographs and sketches from Nature, of the Big Trees, Yosemite Valley, Lake Tahoe, Donner Lake, Gevers, Cliff House and Seal Rock, San Francisco in 1849 and 1853, with a complete description of these places of interest, how to reach them, etc.

Sold by all News Dealers. Published by H. S. CROCKER & CO., San Francisco, Cal. Price 50 cents.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth, struggle, and achievement. From the first settlers to the present day, the nation has evolved through various challenges and triumphs. The early years were marked by exploration and the establishment of colonies. The American Revolution led to the birth of a new nation, and the subsequent years saw the expansion of territory and the development of a unique American identity. The Civil War was a pivotal moment in the nation's history, leading to the abolition of slavery and the strengthening of the federal government. The 20th century brought significant social and economic changes, including the rise of the industrial revolution and the civil rights movement. Today, the United States continues to shape the world through its leadership in science, technology, and international relations.

COLLEGE OF NOTRE DAME,

Marysville, Cal.

For Young Ladies.

CONDUCTED BY THE SISTERS OF NOTRE DAME.

THIS INSTITUTION, established in 1856, is chartered by the State Legislature and endowed with all the rights and privileges of similar Collegiate Institutions in the United States.

Good References are Required Previous to Admission.

TERMS:

Board and Tuition, per half session of 5 mos. \$100 | Piano, with use of Instrument (5 mos.)....\$30
Washing 15 | Vocal Music..... 5

Payments are required to be made half a session in advance.

The course of studies is pursued in the English language; but French, German and Spanish being also spoken by many of the teachers, the pupils enjoy every facility for perfecting themselves in these languages.

The Academy is eligibly situated in the upper part of Marysville, and is surrounded by an extensive garden and play ground, furnished with every facility for the amusement and physical welfare of the pupils.

Minute attention is paid to the comfort and health of the pupils; and in case of sickness they receive the most affectionate care.

For further particulars address **COLLEGE of NOTRE DAME, Marysville, Cal.**

JOHN T. STOLL,

— Manufacturer —

STOLLER and THE SADDLERS,

610 K Street, Sacramento, Cal.

I manufacture as specialties the following.

California Saddles.

I make one twenty-five varieties, among which are the leaders of the Pacific Coast.

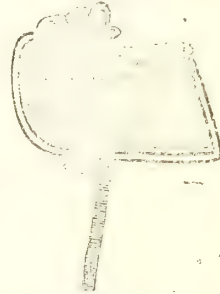

Stoll's Patent Collar.

PATENTED JAN. 10TH, 1882.

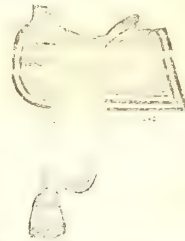

I conscientiously recommend this Collar as the best made on the Pacific Coast.

Side Saddles.

I make some twenty-four varieties, and call particular attention to the "Hollow Seat". It is covered in all and has tried it to be the best and most comfortable.

Stoll's Gentleman's Saddle.

This saddle is the lightest and handsomest Riding Saddle in America.

I Import and Manufacture the following goods;

Bits,	Chamois,	Hair Ropes,	Latigos,	Pads,	Saddle Cloths	Stocks (whip)
Belts,	Chaparejos,	Halters,	Leather,	Polish,	Shawl Straps,	Straps (all kinds)
Blankets,	Cincoas,	Hames,	Leggings,	Rawhides,	Silks,	Surcingle,
Boots,	Collars,	Harness,	Letters,	Reins,	Snaps,	Tapaderos,
Breast straps,	Curry Combs,	Hobbles,	Martingales,	Reins,	Snappers,	Thread,
Bridles,	Cushions,	Hoods,	Muzzles,	Rings,	Soap,	Tools,
Brushes,	Dusters,	Holders,	Needles,	Rivets,	Sweatbands,	Trees for saddles,
Cantinas,	Fronts,	Molsters,	Nets,	Robes,	Sponges,	Wax,
Cards,	Girths,	Housings,	Harness Oil,	Ropes,	Spurs,	Whips (all kinds)
Chains,	Hackamores,	Lashes,	Ornaments,	Rosettes,	Stirrups,	Quirts.

AND EVERYTHING ELSE FOUND IN A FIRST-CLASS SADDLERY AND HARNESS STORE.

Address all Letters,

JOHN T. STOLL,

P. O. Box 54, Sacramento, Cal.

YUBA COUNTY—READ'S STATION—SMARTSVILLE.

Read's Station.

A station on the California and Oregon Railroad, six miles from Wheatland. (See Marysville and Wheatland.)

Smartsville.

An important mining town, eighteen miles east of Marysville. It draws its revenue from the most important hydraulic mines in the State. The town has a population of 400 inhabitants, maintains two churches, a public school, and Masonic, Odd Fellows, Good Templars, Chosen Friends, and Workingmen Lodges. It is pleasantly located in the foot-hills, and has many beautiful gardens, with neat and some expensive houses. It is one of the oldest mining camps in Yuba County, and large sums of money have been expended in developing and working the rich mining claims surrounding it. The Masons have a fine hall, in which the different orders hold their meetings. Express, telegraph and post-offices are located here.

Wheatland.

Situated on the line of the Central Pacific Railroad, thirty-nine miles from Sacramento and twelve miles south of Marysville. It is dependent upon the products of the exceedingly fertile lands of its neighborhood, which consist principally of wheat and potatoes; and also carries an important business from the mines. Wheatland has a population of about 1,000, being the second largest town in the county. It boasts a large flouring-mill, a bank, and three churches, besides a number of extensive business houses.

CAL

COLUSA COUNTY.

ORGANIZED in 1850. It is bounded on the north by Tehama; on the east by Butte and Sutter; on the south by Yolo, and on the west by Lake and Mendocino. Area, 2,376 square miles; county seat, Colusa. The county is sixty miles long, with a breadth of fifty miles, from the Sacramento River on the east to the summit of the Coast Range on the west. The river affords cheap transportation the whole length of the county all seasons of the year.

The resources of the county are numerous, and besides the agricultural and live stock interests, includes a considerable production of such mineral wealth as quicksilver, copper, sulphur, and petroleum, all of which are found in the Coast Range Mountains, which bound the county on the west. It is in wheat growing, however, that this section is pre-eminent, producing the heaviest grain crop in northern California every year. The facilities for transporting this grain are afforded by the Sacramento River and Northern Railway. The farms of Colusa are, many of them, of mammoth proportions. These farms are all brought to a high state of cultivation and are immensely remunerative to their owners. The breeding of improved stock is also a distinguishing feature of the industries pursued, and Colusa has produced some of the finest stock in the State. Every facility for grazing and stock-raising is presented, and the farmers possess the enterprise to take every advantage of these natural resources.

The population, 17,000, is, of course, mainly composed of farmers, and they are, as a class, shrewd business men, who, while advancing their individual interests, do not forget the public welfare of the county. The consequence is that colleges and school houses are supported in the most generous manner. The elegance of many of the private residences and their surroundings indicate that cultivated taste and an intention to render their homes permanent are the prevailing sentiments of each member of the community. The small farms scattered through the county are all in a thriving condition, and actual poverty is unknown among the people. On every hand the sure indication of prosperity is apparent, and the eye is everywhere delighted by visions of fertile grain fields surrounding homes where comfort and plenty are continually making glad the hearts of the husbandman and his family.

Arbuckle.

Situated on the Northern Railroad, 20 miles south of Colusa and 114 miles from San Francisco. A large and constantly increasing business is done at this point, and building of all kinds is brisk and new stores are being started to accommodate it. The soil in the vicinity of Arbuckle is of the most productive in the valley, and yields largely when other parts experience almost a total failure. We are obligated to Mr. T. R. Arbuckle, postmaster and a pioneer of the town, and for whom the place was named, for his valuable assistance in our work. This gentleman will cheerfully accord information about Colusa County to those desiring it.

College City.

Situated eighteen miles south
of Colusa and three miles from
the Northern Railroad at Ar-
buckle. The Pierce Christian
College, a sound educational in-
stitution, possesses buildings and
other property valued at many
thousands of dollars. The fac-
ulty of the college are able,
earnest, and experienced. The
locality is elevated, pleasant, and
healthy; the community indus-
trious, moral, and temperate.
There is not a saloon in the
town. Mr. E. F. Peart rendered
us his valuable assistance in
making up the following list.

Botts Thos A, farmer
Botts G W, farmer
Bower John, laborer with Perry
Hannum
Brasfield Wiley E, county sur-
veyor and farmer, 160 acres

Colusa.

The county seat of Colusa County. Population, 2,500. Situated on the west bank of the Sacramento River, about ninety miles from Sacramento. It has connection by stage with the Northern Railroad at Williams, ten miles distant, also with Maxwell, twelve miles distant. The steamers of the Sacramento Transportation Company make frequent trips. The town was laid out in 1850, and has prospered steadily ever since. It is surrounded by very fertile agri-

cultural land, and it is the center of the largest grain-growing district in the valley. The land hereabouts is generally farmed in large tracts, but it is well cared for. Nearly every acre of it is productive. It may be imagined, with some reason, that Colusa is a very important shipping point, and that a vast capital is represented there. Transactions up in the hundreds of thousands are of frequent occurrence. It is a matter of great surprise that a branch railroad has not been projected to this important point. A line would

greatly benefit the town, or at least it would enable it to retain the trade it has enjoyed for so long, and not permit it to drift to its formidable young rivals on the main line. The town presents a fine appearance with its stately Court House and Hall of Records, as well as its many other business blocks and private buildings. The community of the town is refined, sociable, and hospitable; its churches and schools are numerous and commanding in appearance, and its hotels are well constructed and commodious. The *Colusa Sun*, published by Addington & Green, and edited by Will S. Green, is one of the ablest papers in the State, and it is as widely quoted as its editor is known.

THEORY OF THE EARTH
AND ITS HISTORY

The theory of the earth and its history is a branch of geology which deals with the origin and development of the earth and its various parts. It is a science which seeks to explain the processes which have shaped the earth and its features, and to determine the sequence of events which have taken place since the earth was first formed. The theory of the earth and its history is based on the study of the earth's rocks and fossils, and on the principles of geology. It is a science which is constantly developing, as new discoveries are made and new theories are proposed. The theory of the earth and its history is a branch of geology which deals with the origin and development of the earth and its various parts. It is a science which seeks to explain the processes which have shaped the earth and its features, and to determine the sequence of events which have taken place since the earth was first formed. The theory of the earth and its history is based on the study of the earth's rocks and fossils, and on the principles of geology. 315 J St.,

Sacramento
CAL.

Situated on the main road from Williams to Bartlett Springs, at the junction of Cook & Fout's Springs' road, and twenty-seven miles west of Colusa. It is an important trading point. Mr. W. M. Tucker is Postmaster and owns his store and four dwelling houses of the place. Leesville also has a hotel, saloon, feed stable, blacksmith shop, and a commodious school house. Population of town thirty-eight by actual count (a little census instituted by the Postmaster personally).

Maxwell.

A bright-looking little town

on the Northern Railroad, sev-
enty miles north of Sacramento.
Population, 400. It is the most
centrally located town of Co-
lusa County. Its infancy dates
from the completion of the rail-
road two years ago. What we
consider a good investment for
a little loose cash is the town
lots of Maxwell, or land in the
vicinity, which is of the richest
in the county.

Orland.

It is touched by the Northern Railroad, sixteen miles from San Francisco. It is situated on Stony Creek, in the northern part of the county, forty-five miles from Colusa, and commands a lively trade from that section. Its trade also extends into Tehama County. Chief among its institutions is the Stony Creek College, recently erected by Prof J B Patch, at a cost of \$12,000. It is located one mile from town—a judicious distance, for this kind of an institution. The main college building is built of brick, and the boarding-house of wood. Both are 40x60 feet in dimensions and two stories high. At the Union Hotel, Orland guests receive polite attention, and good fare, at the hands of mine host, Kirkpatrick. The Orland Times, weekly, is gotten up and written in a business-like manner, and all of it is printed in the town. Mr Dawson, its editor, is evidently a man of long experience in the

Norman.

PACIFIC BUSINESS COLLEGE

1320 POST STREET,

RED MEN'S BUILDING,
OPPOSITE UNION SQUARE.

SAN FRANCISCO.

This School is justly ranked by the public as the best Commercial College on the Pacific Coast. It offers to both sexes superior facilities in the following courses of instruction:

THE BUSINESS COURSE.

This is designed to prepare students for BUSINESS PURSUITS. It embraces:

Book-keeping—BY BOTH SINGLE AND DOUBLE ENTRY, as applied to all kinds of business, such as Wholesale and Retail Merchandising, Farming, Manufacturing, Mining, Brokerage and Exchange, Importing and Jobbing, Commission, Railroad, Banking, Etc.

Commercial Calculations—Embracing the most rapid and abbreviated methods of calculation in Percentage, Profit and Loss, Commission, Interest and Discount, Domestic and Foreign Exchange, General Average, Equation of Payments, Interest Accounts, Averaging Accounts, Partnership Settlements, etc.

Penmanship—Including careful instruction in the finger, muscular, whole-arm and combined movements, as applied to plain business writing, ledger headings, etc.

Correspondence—Embracing instruction in composition of business letters, use of capitals, rules of punctuation, folding, addressing, etc.

Business Forms—Such as Notes, Drafts, Bills of Exchange, Accounts Current, Account Sales, Articles of Copartnership, Deeds, Leases, etc.

Actual Business Practice—In Wholesale and Retail Merchandising, Importing and Jobbing, Commission and Forwarding, Banking, etc., etc.

Commercial Law—Relating to Negotiable Paper, Contracts, Partnerships, etc.

Business Customs—Lectures and practical instruction on business customs, etc.

Lectures and Instruction—On Commercial Geography, Political Economy, etc.

RATES OF TUITION:

SCHOLARSHIP for the full Business Course as above explained, time unlimited, \$70

Three Months, Day Sessions..... \$40	Three Months, Evening Sessions..... \$25
One Month, " " 15	One Month, " " 10

ACADEMIC COURSE.

This Course is designed for imparting to persons of any age thorough instruction in the ordinary English branches, such as Spelling, Reading, Writing, Arithmetic, Grammar, Composition, Letter-Writing, History, etc., and the general Mathematical branches, such as Higher Arithmetic, Algebra, Geometry, Mensuration, Surveying, Civil Engineering, Navigation, etc.

RATES OF TUITION: Six Months, \$45; Three Months, \$25; One Month, \$10.

COMBINED COURSE.

It is frequently desirable for students taking the Business Course to combine with it one or more of the studies of the Academic Course. Where the studies of the two courses are combined, the charge per term of six months is \$70.

TELEGRAPHIC COURSE.

This Course offers unsurpassed facilities for learning Telegraphy. Air Lines, Relays, Sounders, Switches, etc., with all the apparatus to be found in any telegraph office, are used; so that students can become good operators in the shortest possible time.

RATES OF TUITION: Six Months, \$40; Three Months, \$25; One Month, \$10.

Students of the Commercial or Academic Departments will be charged the following rates: Six Months, \$25; Three Months, \$15; One Month, \$6.

NOTE.—Students taking the Business Course, or the combined Course, receive instruction in the *Modern Languages, Free of Charge.*

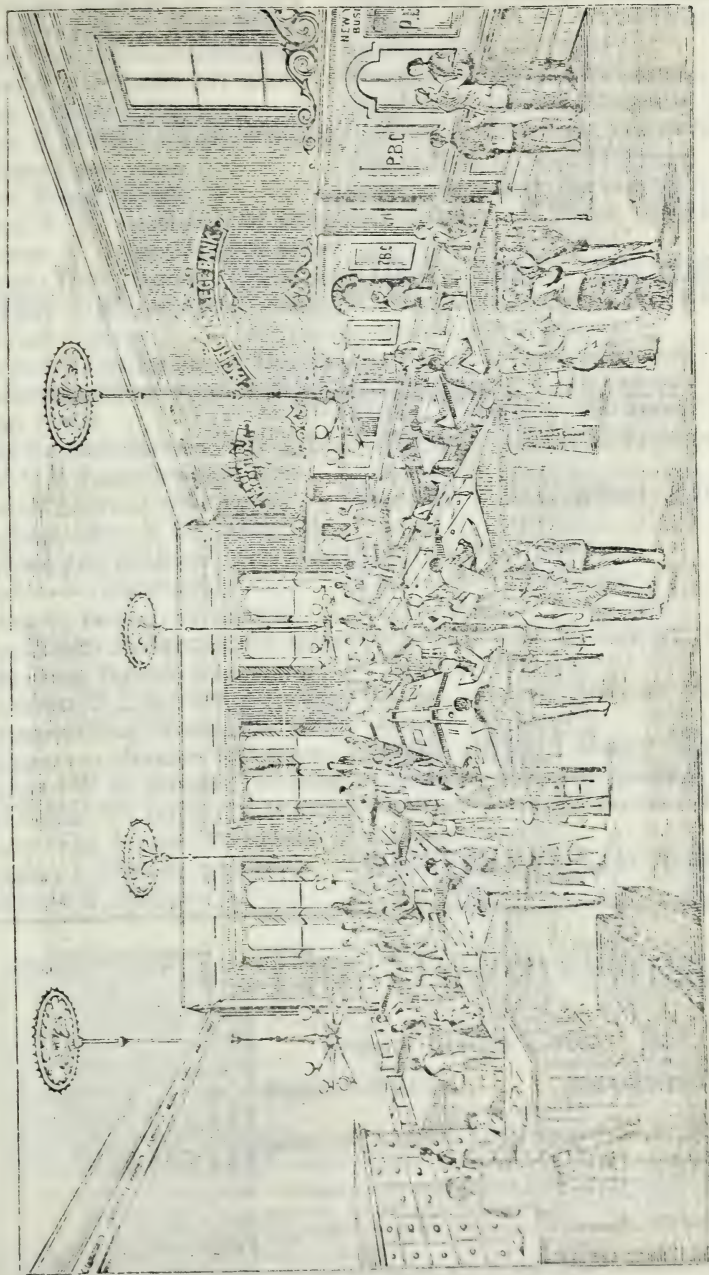

NO VACATIONS—DAY AND EVENING SESSIONS DURING THE ENTIRE YEAR

For further information call at the College Office, 320 Post St., or address the Proprietors.

CHAMBERLAIN & ROBINSON.

Teacher of Mathematics and English Literature.

MRS. F. GRAVES,

Pianist, with an established Conservatory of Music.

THOMAS CREED, Organist.

The buildings are located one mile east of Orland, Colusa County, and three-quarters of a mile south of Stony Creek, occupying a beautiful plot of about twenty acres.

The Institution was founded in 1882, by Prof. J. B. Patch, A. M., an educator of nearly thirty years' experience. Its courses of study comprise thorough Classical, Scientific, Business, Normal, and Primary training. In principle it is practically Christian but wholly un denominational. The two buildings—one brick and the other wood—40x80 feet each, and two stories in height, are considered by all among the finest specimens of school architecture in the Sacramento valley.

A Boarding House large enough to accommodate sixty pupils is located upon the College Campus and in the hands of a choice manager.

The Music Department is under the instruction of a thorough master.

Terms cheaper by fifty dollars per year than any College in this part of the State. School for both sexes.

For particulars address

PROF. J. B. PATCH, A. M.,

President Stony Creek College, Colusa, Cal.

Williams.

Situated on the Northern Railroad ten miles from Colusa. It is the shipping point for that place. A heavy mercantile business is transacted at Williams, as is evidenced from its large, well stocked stores and other thriving manufactories, business houses, and gigantic warehouses. Among its manufacturing interests are a flour-mill of large capacity, a foundry and machine shop, employing a number of skilled mechanics, a boot and shoe factory and a couple of wagonmakers' shops. The Williams House is a brick building, with a large number of spacious and well furnished rooms, conducted by Mr. W. H. Williams, the

pioneer of the town. The Williams House possesses the modern conveniences, including bath-rooms, etc. The Western Hotel is a new building with new furniture, conducted by Mr. J. E. Wilson. The Western House is a good family and transient house. Williams has a population of 500, and a weekly newspaper.

Willows.

Situated on the Northern Railroad, twenty miles from Colusa. Population, about 800. The appearance of the town is commanding as, since the fire, there have added many substantial buildings. It possesses a foundry, machine shop, flouring-mill, soda water factory, a large hotel, beautiful railroad buildings, and the largest brick business block in Colusa County. The different secret orders are represented, as well as several religious sects who possess fine church buildings. There is a commodious public school, with competent teachers, and a weekly newspaper, the *Willows Journal*, widely read in the northern part of the county, where it exerts a great influence. It is edited by E C Hart.

TEHAMA COUNTY.

BOUNDED on the north by Shasta; on the east by Plumas; on the southeast by Butte; on the south by Colusa; and on the east by Mendocino and Trinity Counties. Population, about 7,000. County seat, Red Bluff. At the head of the great valley of the Sacramento, where the Coast Range is wedded to the Sierras, is the county of Tehama. It was organized in 1856, and contains an area of 2,800 square miles, the general character of the surface being broken and hilly. As was the case with all these foot-hill counties, Tehama, in the early days, was famous for its rich placers. These surface diggings, however, could not last, and when they "petered," the people turned their attention to the more established industries of agriculture, grazing, and lumber interests. The county is peculiarly adapted for cattle ranges, possessing, as it does, rich meadow land in abundance, well watered by perennial springs of the best water in the world, and easily accessible from the winter ranges of the lower plains. Hides, beef, wool, and similar staples are exported in large quantities, which, with the farm and orchard products and lumber exports, produce a revenue which serves as a foundation for solid prosperity. A growing industry in this county is that of wine-making, the soil and situation being admirably adapted for this purpose. The wines produced are of the finest quality, and are rapidly attaining a wide celebrity throughout the country. The people are enterprising, and the traveler through this region is forcibly struck by the evidences of permanent prosperity everywhere apparent. The principal towns are substantially built, and the predominance of brick and stone structures occupied by the business men, indicate that they possess none of the ephemeral, mushroom elements of other mountain towns. Even in the smaller villages and hamlets there are no evidences of decay, all of them being surrounded by a population of substantial producers. The educational advantages are first-class, and churches, public halls, and buildings generally are found in every community.

Red Bluff.

It is the county seat and has a municipal form of government under a charter of incorporation. Its topography is desirable for the extension of its limits, being on a natural esplanade on the west bank of the Sacramento River, at the head of navigation, and on the Oregon Division of the Central Pacific Railroad, 135 miles from Sacramento, the State capital. Its natural advantages for a permanent and steady growth are of such a nature and so multifarious as to warrant the belief that the place will become a city of considerable importance in a period not very remote. It is surrounded by a very rich body of agricultural land, and the opportunities for developing the stock-raising, horticultural, and cereal-producing interests are manifold. These facts are being taken advantage of yearly by persons who engage in the pursuits of the husbandman. New lands are being opened up, and an increase in the acreage sown to grain and otherwise cultivated is annually being made. Everything indigenous to the latitude grows luxuriantly, and large crops are yearly harvested. It is mainly to the agricultural interests that the rapid growth of the place is due, though lumber of splendid quality is manufactured in large quantities. It would be an ex-

cellent point for the erection of extensive woolen mills, as the bulk of the wool grown in southern and eastern Oregon and northern California passes through this place. The yearly product of wool of Tehama County reaches almost 2,000,000 pounds, which is a great source of revenue to its capital. With the superior facilities for the manufacture of woolen goods offered by unexcelled water privileges, if taken advantage of, we think an investment in such an enterprise would be a profitable one. The population is put down at 4,000 people, and it has a full complement of factories, mills, etc. There are ample facilities and a demand for manufactures of all kinds. Its citizens are endowed with a spirit of energy and public improvement that adds greatly to their high recommendation of intelligence and morality. The public schools are spoken of in the highest terms, a perfect system for the education of pupils seeming to be the result most sought after. All the religious denominations are represented, while a substantial bank supplies the residents with capital, and three newspapers furnish them with local news.

PROPRIETOR.

Board with Room.....\$1.00 per day.

Meals.....25 Cents.

This House is entirely new and all furniture new and first-class. A large new brick dining-room has been attached, which is commodious and well fitted for the accommodation of guests.

Free Carriage to and from the Hotel. ^{1st} General Stage Office for Tuscan Springs, Belle Mill, Champion and Yellow Jacket Mills.

THE

Howard Evener Hinge Harrow.

It will do more and better work, with the same amount of Stock, than any Harrow now in use.

The side hinge we do away with altogether, and do away with friction on the front hinges by the use of a cast roller in the clevis, which allows the Harrow to vibrate freely and clean itself where other harrows will choke out. The driver walks directly behind and cleans the sections without stopping the team.

PRICE:

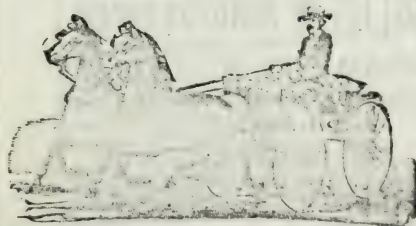

3 Horse, cutting 13 feet, 80 teeth.....	\$40 00
4 " " 19 " 105 "	55 00
6 " " 19 " 120 " heavy	60 00
8 " " 25 " 160 "	\$75 to 85 00

Tehama.

It is situated on the westerly bank of the Sacramento River, distance 123 miles by rail from Sacramento. The Central Pacific Railroad skirts the northern end of the town, and subserves the purpose of a levee, it having on several occasions saved the town from inundation when the river had overflowed its banks above this point. The population of Tehama is about 400. Two schools are maintained, an

intermediate and grammar combined, and a primary. Church and fraternal society privileges are ample. Two public halls serve for varied entertainments. There are two large grain warehouses. Immediately opposite Tehama is located the large flouring establishment of Ellis & Son, run by water-power furnished from Mill Creek. The hotel accommodations of the town are good, there being hotels to suit all classes of travelers.

A. L. BANCROFT & CO.
PRINTERS
LITHOGRAPHERS

This is a specimen of Gloss Color Printing.
It improves and brightens the colors,
rendering them more durable.

Fruit, Salmon
and other Labels Printed in
Gloss Colors from any design required.

A. L. BANCROFT & CO.
BOOKS
STATIONERS

A. L. BANCROFT & COMPANY,

Publishers, Manufacturers, Importers and Wholesale and Retail Dealers in

BOOKS, STATIONERY, PIANOS, MUSIC, ETC.

ALSO,

Printers, Lithographers, Engravers and Binders.

The most complete business of its kind in the country. It is thoroughly systematized and divided into departments—each being in charge of a competent Manager—as mentioned below.

Wholesale Department. Headquarters located on the first floor. All business connected with the wholesale and jobbing trade is referred to it. The immense stock of Stationery in all its branches, occupying portions of three floors, is under its management.

Retail and Library Department. On the first floor. Whatever is for sale in this entire establishment can be purchased at retail in this department. The miscellaneous, scientific, medical and theological books are specially under its supervision. All are thoroughly classified, there being nearly two hundred divisions and subdivisions, embracing every prominent subject of reference.

Law Department. On the first floor. It embraces the law books—about seventy-five volumes; and the legal blanks—over 1500—published by the firm; and a very large and complete stock of text-books and reports imported from the East and Great Britain.

Educational Department. On the first floor. It includes such school books and school stationery as are published and manufactured by the firm, and an immense stock of school books, school apparatus and school furniture imported from the East. The main stock is stored in deep alcoves extending along nearly one entire side of the basement.

Bank and Official Department. Printing, Lithographing, Engraving and Blank Book Manufacturing, especially for Banks and Public Officers. Also, the best qualities of Stationery for their use always in stock in quantities.

Music Department. Embraces several lines of pianos, square and upright, and a large variety of cabinet organs and melodeons. Also a fine stock of sheet music and music books. Latest music periodicals kept on file for free reference.

Subscription Department. On the second floor. The firm has the agency for the best and most popular subscription books, maps and pictures published in the East, and has a large corps of sub-agents constantly in the field in every part of the Coast. Agents wanted.

Printing and Lithographing Department. This department occupies the entire third floor, and has the necessary steam presses and machinery for executing all kinds of printing, lithographing, engraving, initial stamping, etc.

Blank Book Manufacturing Department. Occupies the entire fourth floor, 75 by 170; contains the most complete set of machinery for ruling, folding, binding and manufacturing blank books to be found on the Pacific Coast. The machinery of the printing and binding departments is propelled by an engine and boiler located under the Stevenson Street sidewalk.

Publishing Department. Bancroft's Historical Library, on the fifth floor, is the basis of important scientific and descriptive works of a local nature, and maps and books of reference relating to the Pacific Coast, to be issued by the firm from time to time.

The stock of merchandise and manufactures comprised in the above Departments is the most complete and varied of any single establishment in this line of business to be found in any country in the world. *Special lines of goods and special features of the business are mentioned below.*

Agents for A. H. Andrews & Co., Manufacturers of the Celebrated Triumph School Furniture.

Agents for the Celebrated Knabe Pianos.

Agents for the N. Y. Silicate Book Slate Co.

Agents for the Owen Paper Co.

Agents for the Prince Organs, over \$4,000 of which are now in use.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth, struggle, and achievement. From the first European settlements to the present day, the nation has evolved through a series of challenges and triumphs. The early years were marked by the search for a stable government and the expansion of territory. The American Revolution was a pivotal moment, leading to the birth of a new nation. The 19th century was a period of rapid growth and change, with the Civil War being a defining event. The 20th century brought new challenges, including the rise of industry, the Great Depression, and the Cold War. Today, the United States continues to shape the world, facing new challenges and opportunities.
